

Who We Are

The NAMD Alumni Network is made up of former Medicaid Directors, no longer in state service. Members share a long-lasting affinity for their time leading a state or territorial Medicaid agency and through the network, continue to nurture professional connections in and outside of Medicaid. Alums are keenly interested in the ongoing impact, effectiveness, and regard for the Medicaid program.

The NAMD Alumni Network

Annual Membership Meeting -- an intimate gathering of state agency staff that offers exclusive, “low pressure” connections with Alumni Network members.

Norms and Conflict of Interest

NAMD offers forums designed for Alumni with business solutions to meet a willing/engaged audience of current state agency staff. Typically, this is the Fall Conference Exhibit Program. NAMD strives to build environments that support learning, coaching and skill building between Alumni and current agency staff that avoid overt vendor sales and marketing. Alumni Network Members are asked to respect the norms of each convening and agree annually to a conflict of interest agreement.
